

Product Specification Sheet

Wireless 2.4 GHz Presenter

Part #: AMP02EU

Product Description:

The Targus Wireless 2.4 GHz Presenter is a multi-tasking wireless device which offers mouse capability and presentation controls with a built-in laser pointer – the perfect tool for a great presentation. For greater freedom the presenter also offers 15 metres range to control your presentations allowing you to move around the room with confidence. The ideal tool for that perfect presentation in a small compact form factor.

Product Features and Specifications:

- **Multi-tasking wireless device:** offers effortless mouse capability and presentation controls with a built-in laser pointer for the perfect presentation
- **Integrated 2.4GHz wireless technology:** provides true freedom for effective presentations of up to 15 meters
- **No software required** - just plug it in and start enjoying mobile freedom for your presentations
- **Additional functionality:** start/stop, go dark (a new feature that darkens the screen temporarily allowing everyone to concentrate on that one topic of discussion) and a mode (mouse vs. presentation) - a simple tool for everyone
